MEMORANDUM FOR: CIA Records Administration Officer

SUBJECT: Annual Report of Records Volume -
SIPS Task Force

1. The 51% increase in records volume shown in the attached Report of Records Holdings for the SIPS Task Force can be attributed to the intense increase in Task Force activity over the past fiscal year in moving towards project implementation, the writing and assembly of user (customer) and operations procedure manuals, and the formalization of specification and requirements documentation expected at this phase of the project. Since the Task Force (now known as OJCS/MAP) has reached this point, efforts can now be made through the developing fiscal year to reduce the size of various project and work reference files through destruction or through transfer of scheduled materials to the Records Center. In lieu of attempting to establish a records control schedule [now in draft form] for the SIPS Task Force [now defunct], MAP will use the schedule already established for OJCS.

2. No attempt has been made to complete the FilingSTATINTL Equipment Inventory since equipment used by the Task Force belongs to OJCS.

*No equip
inventory
